## **Introduction**

DACH INTERNATIONAL SERVICE LIMITED is a multi faceted company with its products and services focused on the oil and gas industry, marine logistics, soil/ground water and environmental services.

We are a client focused brand, with emphasis on quality and flexibility. We encourage a culture of safety and safe work practices. We are innovative and believe in the philosophy of continuous learning and improvement. We are determined to succeed and we draw inspiration from challenges.

The multi-disciplinary certified and experienced personnel team of professionals in DACH INTERNATIONAL SERVICE LIMITED provides a solution based atmosphere in all our projects and gives us a competitive advantage in the industry.

Our customers and clients use DACH INTERNATIONAL SERVICE LIMITED to dramatically improve efficiency and process management. Because of our knowledge of clients/customers expectations and needs our philosophy of value adding solutions, promptness and cost effective services have being top notch.

DACH INTERNATIONAL SERVICE LIMITED implements its projects from conception, feasibility studies, project organization, management, legal and financials with precision and exactitude giving our clients satisfaction and peace of mind. In addition to our traditional services we have also diversified to providing marine logistics. DACH INTERNATIONAL SERVICE LIMITED looks to the future-We create, We develop and We fulfill your vision.

## About US

The history of DACH INTERNATIONAL LIMITED can largely be traced to the vision and solid work experience of the founding fathers/promoters. At the onset of his working career up to the point where he decided to veer into entrepreneurship, he had worked at the highest levels of his professional career by directing, managing and delivering on technical and engineering projects such as drilling, waste management and network infrastructure projects. These work experiences garnered over the years coupled with visionary attitude and collaboration with other professionals having the same mindset gave birth to DACH INTERNATIONAL SERVICE LIMITED.

With opportunities coming up in the oil and gas sector, DACH INTERNATIONAL SERVICE LIMITED decided to undertake the following services to fulfill the visions of the founders/promoters;

- Geotechnical Services
- Engineering Services
- Oil & Gas Project Management
- Hydrogeological Services
- Civil Engineering Works
- Procurement Support Services.
- Marine Logistics

We are presently providing services in Rivers State, Delta State, Lagos State and FCT (Abuja). Emerging opportunities and favourable government legislations (Cabbotage law, local content policy e.t.c) have opened up new vistas for growth and expansion in the oil and gas industry.

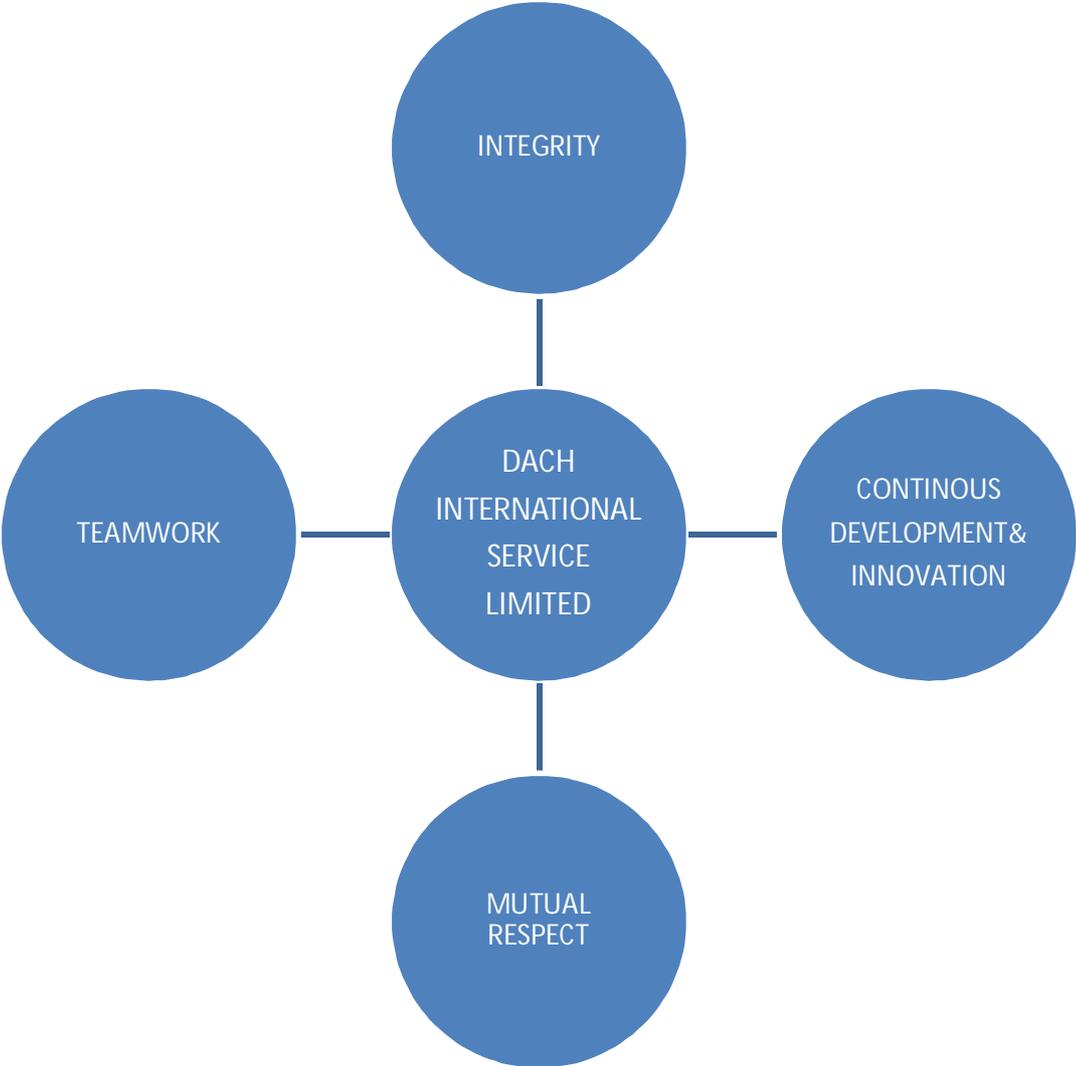

## OUR VISION

*"To be a dominant and the preferred service provider in the procurement, engineering, marine and oil & gas industries in Nigeria and the world at large."*

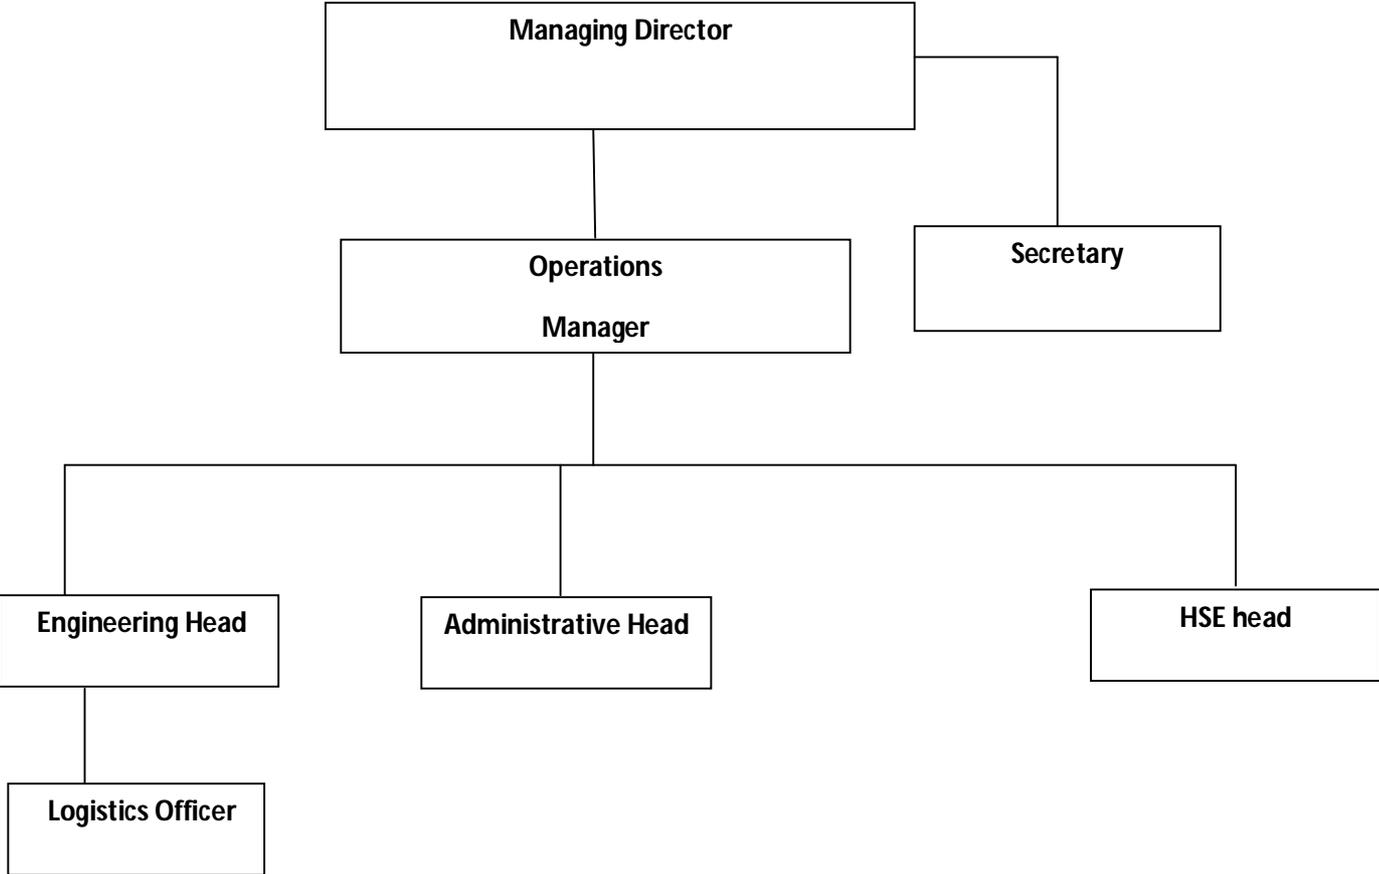

## OUR MISSION

*"To develop an effective management strategy that will achieve the goals and objectives of our vision while conforming to standards and regulations."*

**OUR VALUES**

**ORGANIZATIONAL CHART**

## **KEY PERSONNEL**

### **Directors**

1. Achese Promise
2. Dagogo Olungwe

### **Managers**

- |                   |                      |
|-------------------|----------------------|
| 1. Achese Promise | - Managing Director  |
| 2. Yengibo Pere   | -HSE Manager         |
| 3. Iniabu Okujagu | - Operations Manager |

### **Other officers:**

- |                   |                               |
|-------------------|-------------------------------|
| 1. Idoreyin Sam   | Company Secretary             |
| 2. Deinma Olungwe | Procurement/Logistics Officer |

## **SERVICE PROVIDED**

DACH INTERNATIONAL SERVICE LIMITED provides a multi-disciplinary range of services supported by seasoned foreign technical partners and we have capabilities to handle the projects listed below;

### GEOTECHNICAL INVESTIGATION

- Structural geotechnical and environmental geotechnical work.
- Soil Sampling
- Sediment and Surface Water Sampling
- Piezometer and Monitoring Well Installation
- Groundwater Sampling (including low-flow methods)
- Aquifer Testing (slug, packer, and pumping tests)
- Contaminant Fate and Transport Modeling
- Hydrogeologic Analysis
- Geophysical Evaluations (surface and borehole)
- Waste Management
- Water quality Analysis
- Mechanical System Evaluation
- Foundation Stability & Design
- Environmental Site Assessments
- Fire Protection Studies
- Aquifer Testing (slug, packer, and pumping tests)
- Contaminant Fate and Transport Modeling
- Geophysical Evaluations (surface and subsurface)
- Applied research in geotechnical and ecological engineering.
- Environmental Impact Assessment
- Quantification and management of geotechnical and ecological risk
- Numeric modeling of geotechnical problems and calculations for geotechnical construction and parametric studies.
- Laboratory test in accredited geomechanics laboratory.

## ENGINEERING SERVICES

- Site Survey
- Project Management
- Layout and foundation design
- Building superstructure design
- Building finishes schedule
- Structural design and detailing
- Road design
- Surface drainage
- Oily water separators
- Effluent treatment tanks
- Security fencing and gates
- Service trenches
- Pipeline racks
- Process input to equipment data sheet
- Safety equipment specification
- General Civil engineering constructions.

## OIL AND GAS PROJECT MANAGEMENT

- Client interface and reporting
- Cost Control
- Create Project Plan, Deliverables and Milestone Scheduling
- Discipline Interface Management
- Change and Process Control
- Contract Administration.
- Project Progress, Tracking, Resources Control and Back Up Plans
- Integrated Subsurface Studies
- Onshore and Offshore Services.

## PROCUREMENT

- Procurement Support Services
  - RFQ's Preparation
  - Tendering and Assessment
  - Placement of Purchase orders and Subcontractors
  - Vendors Document Expediting
  - Expediting Materials and Equipment Deliveries
  - Inspecting and Releasing of Materials
  - Logistics and Transportation.
- Oil Field Equipments.
- Drill Bits/Pipes/Casing
- Flow Control Equipment and Accessories
- Filter Equipments and Screens
- Valves Activation Equipment.
- Chokes
- Well Heads
- Completion Accessories

- Gasket/Jointing Materials.

#### MARINE LOGISTICS

- Tug Boats.
- Barges.
- Marine Hoses/Ropes
- House Boats
- Work Barges
- Crew Boats
- Supply Vessels

#### HYDROGEOLOGICAL CONSULTING

- Hydrology
- Hydrogeology
- Groundwater Modeling
- Land Use Planning
- Watershed Studies
- Relationship Between Land Use and Water Quality.

## **HSE POLICY**

Care for employees' health and safety (HS) is perceived by DACH INTERNATIONAL SERVICE LIMITED to be an equal and inseparable part of all business activities, where employee participation is a key element in the overall management of HS. The company management fully supports the training of employees to increase their motivation and responsibility to ensure occupational health and safety.

### **Principles of Company OHS Policy**

- Prevention and protection of employees and clients from injury and illness
- Perceptions of values of protecting health and safety on a level with other principle business values
- Management of safety risks, their removal or minimization
- Supporting company culture of protecting health and safety, in which employees share the obligation to integrate protection of health and safety in their everyday behaviour
- Inclusion of the values of protecting health and safety in all client solutions

## **ENVIRONMENTAL POLICY**

In addition to many other fields of activity, DACH INTERNATIONAL SERVICE LIMITED has many years experience in the field of the environment, including for example surveying and remediation of polluted areas, ecological audits, risk analysis and last but not least advisory and consulting work.

### **As a Policy we undertake the following:**

- Fulfill legal and other requirements regarding the environment, protecting health and safety in all its activities
- Manage the environmental impacts of operations and services planned to improve the environmental company profile
- Give priority to environmentally sound technology and act this way even with subcontractors
- Consider subcontractors environmental profiles during the selection process
- Monitor and support international initiatives leading to development of environmental protection and seek to build our own environmental management system corresponding to global standards
- Increase the awareness of employees about environmental protection and work safety via internal and external training and educational programmes
- Communicate with employees and the public and provide interested parties with factual information about the impact of our work on the environment
- Provide a framework for setting and retesting environmental goals and target values

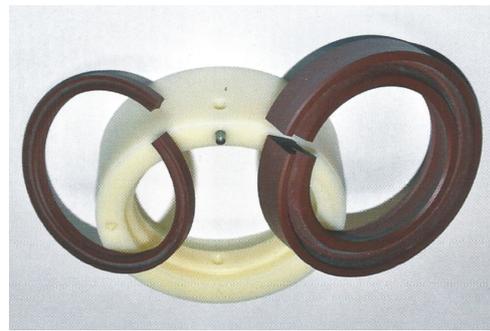

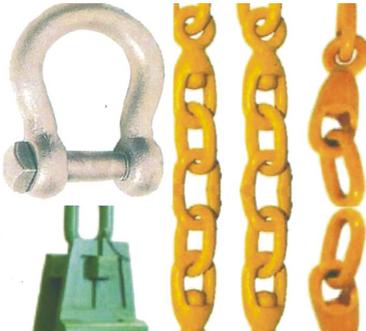

## **TRACK RECORD**

1. Overhaul of existing water infrastructure in seven communities in Okirika Local Government area.
2. Procurement of Super Lock Washer, Double flapped Washer MLS and Marginal Head Bolt with Nuts for CESL.
3. Waste management carried out on Seawell drilling site.
4. Provision of Marine Logistics For A&A Nigeria Limited
  - a. Barges
  - b. Tug boats
  - c. Marine Hoses
5. Carried out a Cutting Re-injection programme for Oil Data.
6. Procurement of Oil Field Equipments for TOTAL UPSTREAM NIGERIA LTD.
7. Civil construction work for T3 Limited;
  - a. Perimeter fencing
  - b. Concrete flooring of Cabin quarters
  - c. Renovation of technicians shed
  - d. Construction on waiting stand.
8. Procurement of Fire equipments for GYRO
  - a. Fire Extinguishers
  - b. Gas leak Detectors
  - c. Fire alarms
  - d. Chemical Foams and Hydrants.
9. Research and Consultancy on water contamination of Obio field.

## **AGENCY / DISTRIBUTORSHIP**

1. HYDROBOLT LIMITED, UK
2. STOKAIR
3. CIMTEK FILTRATION
4. MAXIMUS EQUIPMENT
5. FILTROS METALSINTER

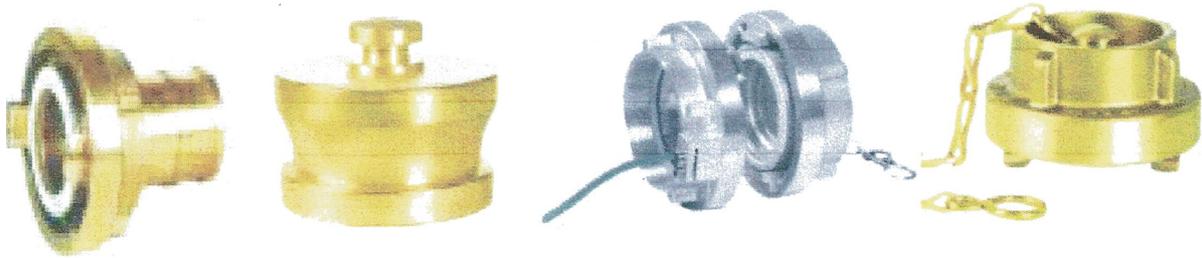

**Glob valves, manually operated**

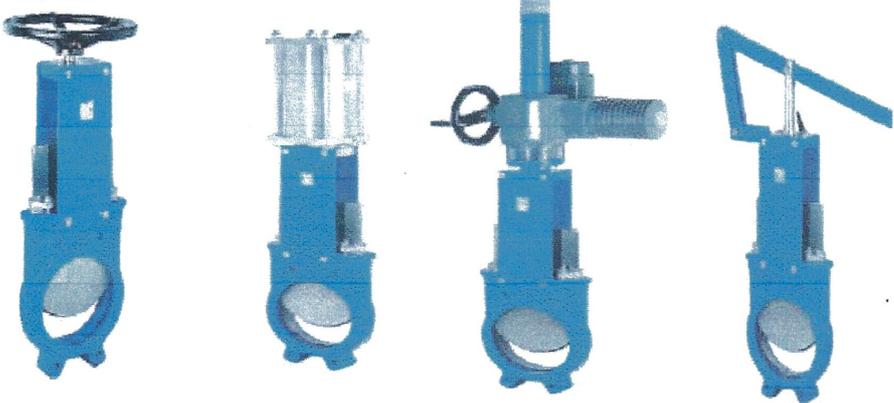

## Hose couplings

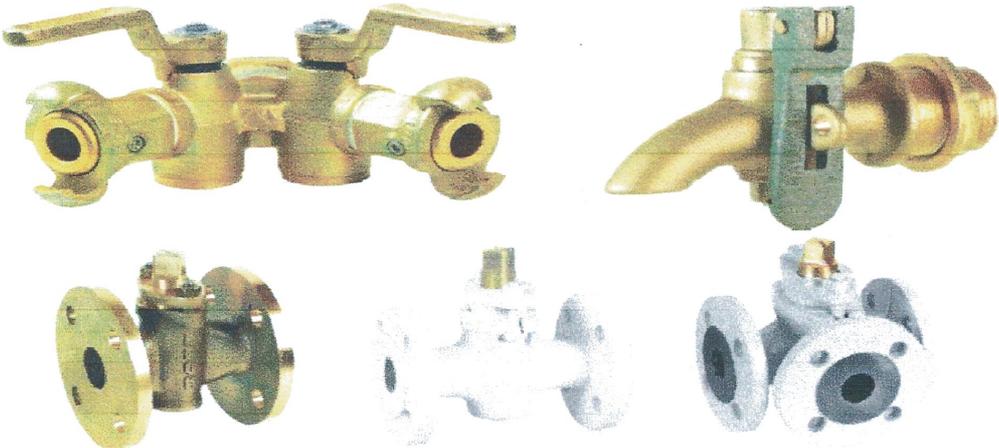

## GATE VALVE

**KNITE GATE VALVES**

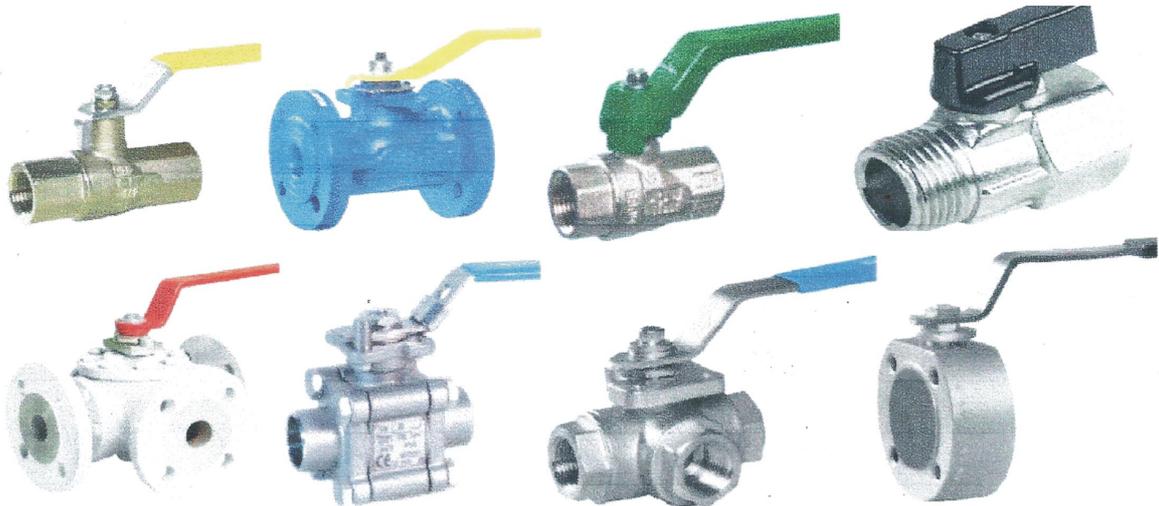

**Plug valves**

## BUTTERFLY VALVES

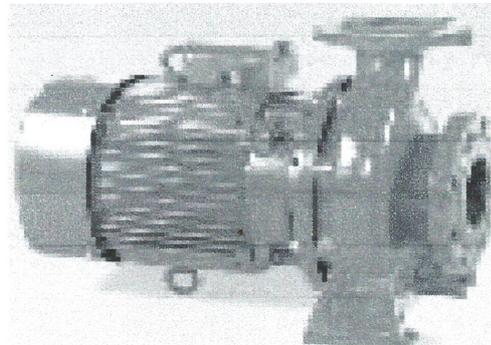

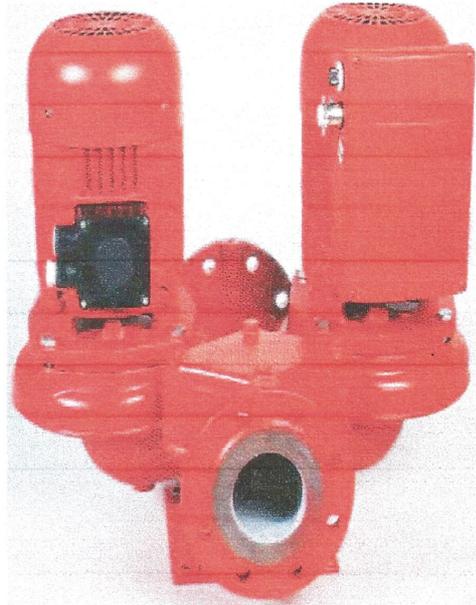

## BALL VALVES

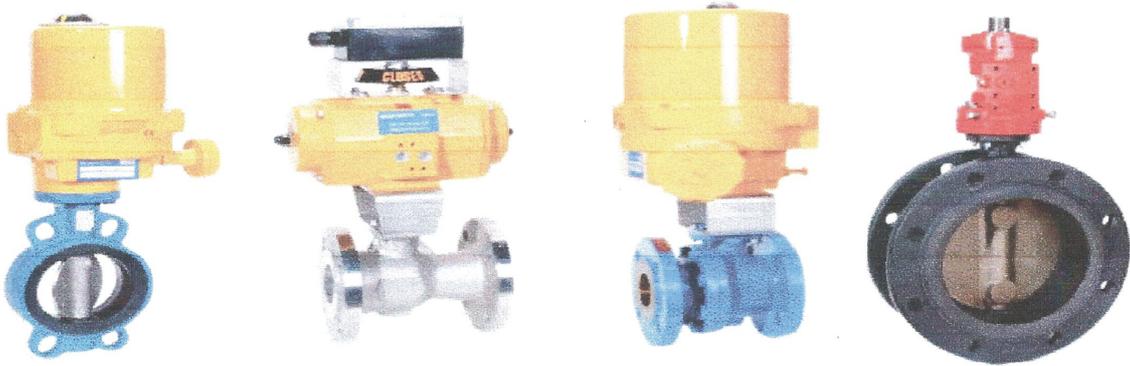

CHECK VALVES

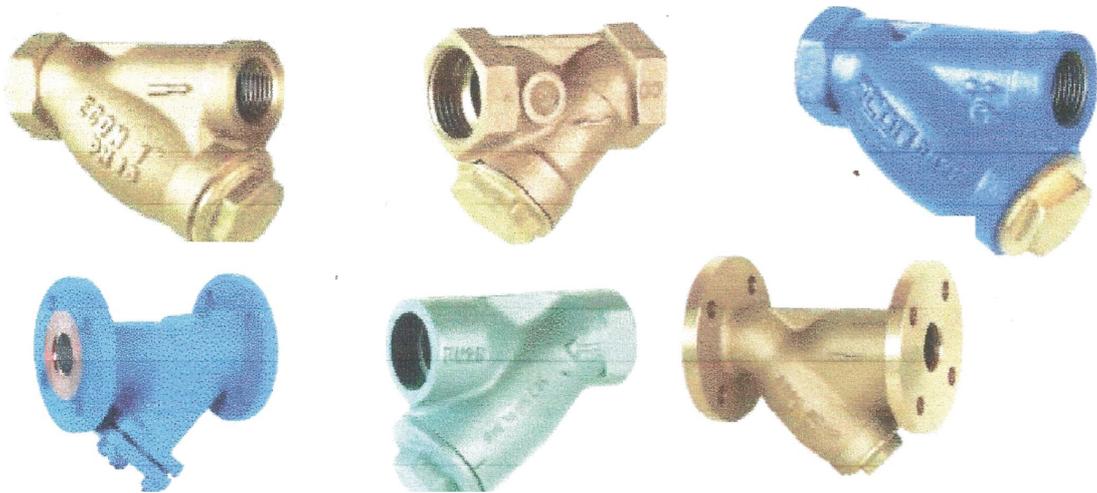

## Pumps and Electric Motors

**ACTUATOR VALVES**

**STRAINERS**

## PRESSURE TRANSMITTERS

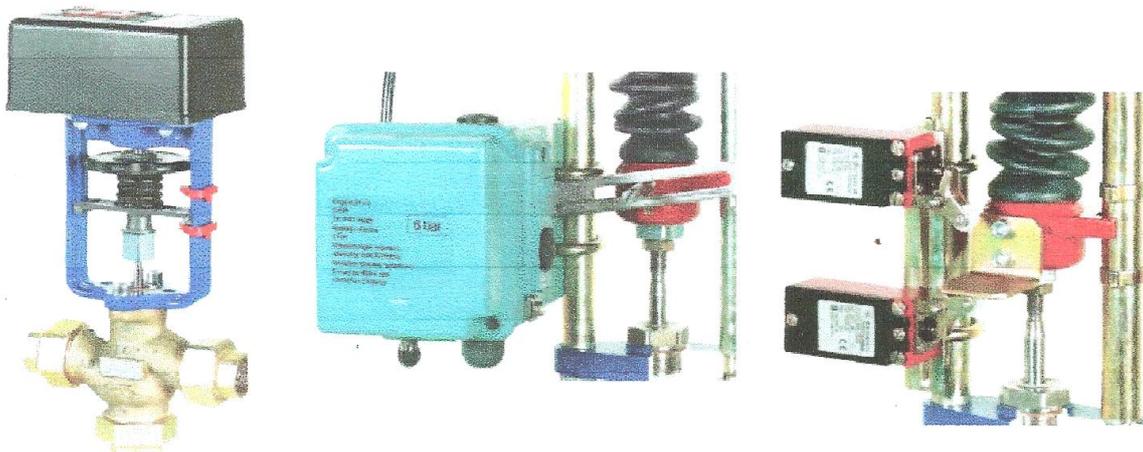

## DP GUAGES

## SOLENOID VALVE

## Electrically-Pneumatic Controlled Valves

**Magmaster Flow meter**

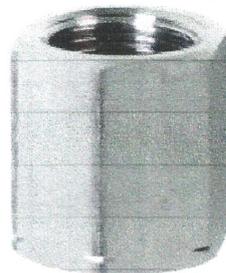

**Oil Meter**

**Water Meter**

**Pressure measurement, Nipples**

## SUMMARY

We are a close knitted unit of professionals whose uniqueness and strength lies in the combination of knowledge and experience. Having worked with over 20 quality driven clients we are poised to explore new ideas, philosophies & opportunities in the actualization of our objectives.

Five reasons why you will work with us:

- Superior know how in all our fields of operations
- Comprehensive problem solving from research to planning to Implementation.
- A modern approach ensuring optimization between economic, ecological and technical solutions.
- Proven ability in managing ecological and engineering risk.
- Operational company with the technical and financial background of a global company.
